Controls and compliance checklist

To complete the controls assessment checklist, refer to the information provided in the scope, goals, and risk assessment report. For more details about each control, including the type and purpose, refer to the control categories document.

Controls assessment checklist

Yes	No	Control
	\checkmark	Least Privilege
	\checkmark	Disaster recovery plans
	\checkmark	Password policies
	\checkmark	Separation of duties
\checkmark		Firewall
	\checkmark	Intrusion detection system (IDS)
	\checkmark	Backups
\checkmark		Antivirus software
	\checkmark	Manual monitoring, maintenance, and intervention for legacy systems
	\checkmark	Encryption
	\checkmark	Password management system
\checkmark		Locks (offices, storefront, warehouse)
\checkmark		Closed-circuit television (CCTV) surveillance
\checkmark		Fire detection/prevention (fire alarm, sprinkler system, etc.)

To complete the compliance checklist, refer to the information provided in the <u>scope</u>, <u>goals</u>, <u>and risk assessment report</u>. For more details about each compliance regulation, review the <u>controls</u>, <u>frameworks</u>, <u>and compliance</u> reading.

Compliance checklist

Payment Card Industry Data Security Standard (PCI DSS)

Yes	No	Best practice
	\checkmark	Only authorized users have access to customers' credit card information.
		Credit card information is stored, accepted, processed, and transmitted internally, in a secure environment.
	\checkmark	Implement data encryption procedures to better secure credit card transaction touchpoints and data.
	\checkmark	Adopt secure password management policies.

General Data Protection Regulation (GDPR)

Yes	No	Best practice
\checkmark		E.U. customers' data is kept private/secured.
\checkmark		There is a plan in place to notify E.U. customers within 72 hours if their data is compromised/there is a breach.
	\checkmark	Ensure data is properly classified and inventoried.
\checkmark		Enforce privacy policies, procedures, and processes to properly document and maintain data.

System and Organizations Controls (SOC type 1, SOC type 2)

Yes	No	Best practice
	\checkmark	User access policies are established.
	\checkmark	Sensitive data (PII/SPII) is confidential/private.
\checkmark		Data integrity ensures the data is consistent, complete, accurate, and has been validated.
\checkmark		Data is available to individuals authorized to access it.

Recommendations:

"There is a clear lack of controls and adherence to compliance, which can eventually lead to bigger problems such as fines, data breaches, and a negative impact on the reputation of Botium Toys if not implemented in a timely manner.

The current security controls put in place have plentiful room for improvement, and implementation of some basic controls such as the Principle of Least Privilege, an Intrusion Detection System (IDS), a Password Management System, etc. can prove to be very beneficial to the organization by ensuring adequate privacy and security for those associated with it i.e. employees and end-users.

Similarly, adherence to compliance policies like the PCI DSS, GDPR, SOC type 1, and SOC type 2, will help our organization avoid fines by government agencies, and ensure smooth workflow with all parties connected and regulations fulfilled. "
